

DR. ERIN BANNINK

DVM, DACVIM (Oncology)

Transformational Speaker · Conscious Healing Guide · Author · Retreat Leader

Dr. Erin Bannink bridges modern medicine, ancient wisdom, and consciousness to help high-achieving individuals reconnect with purpose, inner sovereignty, and meaningful transformation. Her work is grounded in two decades of clinical medicine and shaped by years of deep spiritual training — and she holds both without apology.

She speaks to the audience that is highly accomplished yet spiritually undernourished — those who know something essential is missing, even if they've never had language for it.

— SIGNATURE TRANSFORMATIONAL TOPICS

The Missing Dimension of Healing

How emotional, energetic, and spiritual factors shape our experience of illness, resilience, and recovery — and why conventional approaches, however excellent, were never designed to address the whole person.

Why Success Alone Doesn't Create Fulfillment

A rigorous, deeply human exploration of achievement culture, inner fragmentation, and the search for something that outlasts the next credential, milestone, or goal.

Inner Mastery in a World of Burnout

Practical tools rooted in ancient wisdom and nervous system science for sustainable transformation — sovereignty, clarity, and conscious living without spiritual bypassing.

The Human-Animal Bond as a Portal to Awakening

Grief, love, co-regulation, and the profound ways animals crack us open to deeper presence, healing, and truth. A moving exploration of what our relationships with animals reveal about ourselves.
